

- 8 High Power LED Chips
- Basic, Self-Test & DALI-2 Options Available
- Can be used with LiteMesh
- Central Battery Options Available
- Up to 300 Lumen
- 52mm x 8mm with Fixings at 44mm
- 6000K Colour Temperature

The MinEM is a miniature dedicated emergency LED strip which is designed for auxiliary emergency applications, where the mains light source cannot be converted to emergency.

The LED can be driven up to 700mA and provides up to 300 lumen.

In the case of a T5 or T8 LED tube application, this 52mm long LED strip can be fixed to the geartray, adjacent to the LED tube.

The product can be paired with our control gear to run as either centrally supplied emergency, basic self-contained emergency, self-test, DALI emergency or wirelessly monitored emergency.

## Order Code:

MinEM 52mm long Dedicated Emergency LED Strip

## Technical Details:

Input Voltage	4V DC Max	Output at 350mA	150 Delivered Lumen
Power Rating	3W	Output at 550mA	236 Delivered Lumen
Maximum Forward Current	700mA	Output at 700mA	300 Delivered Lumen
Light Source	Samsung 5630	Wiring Method	0.5mm Panel Mount Terminal Blocks
Beam Angle	Open Chip	Light Source Colour	6000K
Dimensions	52mm x 8mm	Fixing Centres	44mm
Tc Max	80 ° LED Back Plate	Weight	0.005Kg
